

Utah State University 2017 CONSTRUCTION MAP

On April 25, 2017, Utah State University broke ground on its new state-of-the-art Life Sciences Building to be constructed immediately to the north of the Eccles Conference Center. We're very excited for this new neighbor and the opportunities it will present to our campus community. This building project is scheduled for completion in January 2019.

Monday, May 8, 2017 marks another phase of the campus-wide steam conversion. This project will limit access to the green area between the Taggart Student Center (TSC), the University Inn, and the Geology and Animal Science buildings. The steam project will be completed by September 2017.

- A**  CONSTRUCTION ZONE: **Life Sciences Building** (APR 2017 – JAN 2019)
- B**  CONSTRUCTION ZONE: **Steam Line** (MAY 8, 2017 – SEP 2017)
